Differentiators:

Methodology – For Project and Program Management processes we apply the most confident and appropriate methodology, from waterfall to agile methodology and associated cost impact that guarantee faster and more cost effective results to the client .

Experience – highly qualified consultants averaging over 20 years of field experience with an open mind to view issues in different ways, willing to try different solutions and allowing the free flow of information. Our leadership approach allows seeing the big picture and how it impacts and relates to the smaller processes.

Effective – We have reduced processing time for some systems by more than 90% and increase compliance and accuracy on the processes.

Value Added: We have saved up to 60% cost of processing to our clients. On all our consulting engagement we have the ability to make cash-on-cash way up above 100% within a period of 3 to six months with more savings and a higher Internal Rate of Return on investment by the second year.

Current & Past Performance Clients:

Serving Government and Industry
