- Medical Settings
- Telephone Interpretation Services
- Voice-over

Project Management

- Overall project management for translations engagement
- Terminology and contextualize meaning of words within each project
- Process and efficiency consulting

Differentiators: *Why GL Solutions?*

Methodology – For any translation or interpretation project we apply the most confident and appropriate methodology and associated cost impact that guarantee accurate, fast and cost effective results to our client. We analyze the intended audience dialect and context with the right personnel for the work.

Experience – Highly qualified personnel averaging many years of translation and interpretation experience with an open mind to view issues in different ways, willing to try different solutions and allowing the free flow of information. Our leadership approach allows seeing the big picture and how it impacts and relates to the smaller processes.

Effective – By focusing on the target audience and context approach, we have proven to increase compliance and accuracy on these processes.

Value Added -- Historically, GL Solutions has saved up to 60% cost of processing cost to our clients. On all our consulting engagement we have the ability to make cash-on-cash above 100% within a period of 3 to six months to the client.

Current and Past Corporate Expertise

Our team has over 26 years of translation and interpretation expertise, including basis interpretation, voice-over services, legal document translation, health information translations, technical document and corporate and business translations.
